

III

Club
Natació
Bromera
Almassora

www.crono4sports.es

ADULTS:
Obert a les 10:00h - 1.800m
12€ (no federats), 9€ (federats)
300 places des de 14 anys

Obert a les 11:00h - 400m GRATUÏT
50 places des de 10 a 14 anys
SORTEIG DE MATERIAL ESPORTIU

00000000

Polychlorinated biphenyls (PCBs) are a class of synthetic organic compounds that have been widely used in various industrial and consumer products since the mid-20th century. They are known for their chemical stability and resistance to degradation, which has led to their persistence in the environment. PCBs are composed of two benzene rings connected by a single bond, with chlorine atoms substituted at various positions on the rings. This structure gives them unique properties, such as high boiling points and low volatility, making them useful in applications like electrical insulation, plasticizers, and pesticides. However, their persistence and potential toxicity have led to concerns about their environmental impact. PCBs can accumulate in the food chain, particularly in fatty tissues of animals, and have been linked to various health issues in humans and wildlife, including reproductive problems and cancer. Due to these concerns, the use of PCBs has been heavily regulated in many countries, and efforts are being made to monitor and clean up contaminated sites. Despite these measures, PCBs remain a significant environmental concern due to their long half-life and potential for long-range transport.

Prova puntuable per al Trofeu Aigües Obertes Diputació i Circuit Aigües Obertes Federació Valenciana.
Més info: 616 890 282 - info@nataciobornera@gmail.com. Recollida de dorsals en mida zona mercat o esplanada nova de 8h a 9.30h

III Travesía platja Almassora

CERTIFICADO DE PARTICIPACION

SALMERON VEGAS, DIEGO

INDEPENDIENTE

DISTANCIA: 1800 / 400 mts

T.OFICIAL: 00:32:59 RITMO: 01:49 min/100mts

DORSAL: 43 POS: 84

CAT: Máster A masc POS. CAT: 15
